

COSMOPOLITAN TOWNHOMES

Atlanta, Georgia

TUNNELL-SPANGLER-WALSH & ASSOCIATES

The Cosmopolitan on Lindbergh is TSW's largest urban architectural project in Atlanta. The townhomes are just one component of this residential development totaling 258 units. The 3-story townhomes provide a transition from its lower density surroundings to the higher density condominium and apartment buildings. Comprised mainly of brick, the townhomes offer large windows and private entrances from the street.
