

# RIDGE AT BACKBROOK GOLF CLUB

Ringoes, New Jersey

TUNNELL-SPANGLER-WALSH & ASSOCIATES

Designed in what Jerry Spangler calls the American Rustic Tradition, the facility is inspired by Folk Architecture of the Mid-Atlantic and Adirondack regions. The design features native stonework, combinations of stained wood, board & batten siding and shingles and round timber structural members.

Serving a private golf club with a Tom Fazio designed course, the 20,000 sq. ft. clubhouse has generous men's and women's locker areas on its terrace level. Upstairs, a variety of casual dining environments are created including an inglenook lounge, a screened porch with fireplace, a private dining room, and the club's grand hall.
