

**ADAMSVILLE**  
Atlanta, Georgia

TSW was retained by the Atlanta Neighborhood Development Partnership to prepare a master plan for Adamsville, a Traditional Neighborhood Development totaling 27 acres. The site, which once contained a deteriorating 350-unit apartment project, will now consist of a variety of single-family homes, apartments, townhomes and condominiums with adjacent parks and open spaces. In addition, a commercial building will front Martin Luther King, Jr. Drive to provide neighborhood retail and services.
